About Us

**Proudly Australian Made,
Owned & Manufactured.**

**Installed By Trained
Professional Installers**

**Patented
Technology**

**2-Year
Local Warranty**

Midnight Anytime Blinds specialises in blackout systems that deliver 100% blackout.

Our patented frame blocks light at every edge. No gaps. No cords. No light leaks. Just blackout that works.

Each blind is motorised, made to order, and custom-fit to your window. A full range of frame and fabric colours allows for a seamless match or a deliberate contrast, depending on the space.

Manufactured locally in South Australia and Western Australia, our systems are certified Australian Made and built to suit real homes. Local production ensures we can deliver a premium product regardless of location. Installed by professionals. No retrofits. No third-party sparkies.

Trusted by shift workers, parents, renovators, and designers alike, we focus on long-term performance, clean installation, and honest service from start to finish.

We build blackout systems for people who expect more from their space and their sleep.

"Amazing product and even better service.
The whole process was smooth, and the results
speak for themselves — total blackout."
— Rebecca, SA

Features & Benifits

Convenience

Imagine controlling the ambiance of your room with a simple touch. Our motorised blackout blinds can be operated effortlessly via a remote control or smart device app, making them ideal for both hard-to-reach windows and everyday use.

Enhanced Privacy

With Midnight Anytime BLACKOUT Blinds, you have complete control over the amount of light entering your space. Enjoy the ultimate privacy whenever you need it, whether it's for a restful sleep, a private movie night or just the luxury of total darkness on demand.

Improved Sleep Quality

Our blinds create an environment of complete darkness, essential for improving sleep quality and ensuring you wake up refreshed and ready to seize the day.

Energy Efficiency

Our blackout blinds are designed to help regulate indoor temperatures by blocking out unwanted sunlight during summer and providing a pocket of air insulation during winter. This can help reduce your energy consumption and keep your home comfortable year-round.

Protection of Interior Furnishings

Harmful UV rays can fade and damage your furniture and flooring. Our blinds provide a protective shield, ensuring your interiors remain vibrant and well-preserved.

Safety

Designed with a cordless mechanism, our blackout blinds eliminate the risk of entanglement, making them a safer choice for homes with children and pets.

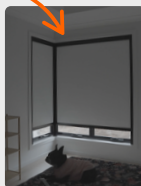

Customisation

Our eSmart blackout blinds can be programmed with a hub to operate on a schedule or adjusted to specific preferences, allowing for greater customisation and control over your lighting and privacy needs.

AFTER

Customer Testimonials

We installed the motorised blackout blinds in our master bedroom last year and loved them so much that we recently got them for our toddler's bedroom too. They create a full blackout (perfect for getting toddlers/babies to sleep) and were super easy and quick to install. John was an excellent help with both of our orders and was extremely helpful, going above and beyond. We would 100% recommend these to anyone looking for well made, high quality, neat looking and functional blackout blinds.

- Kim B

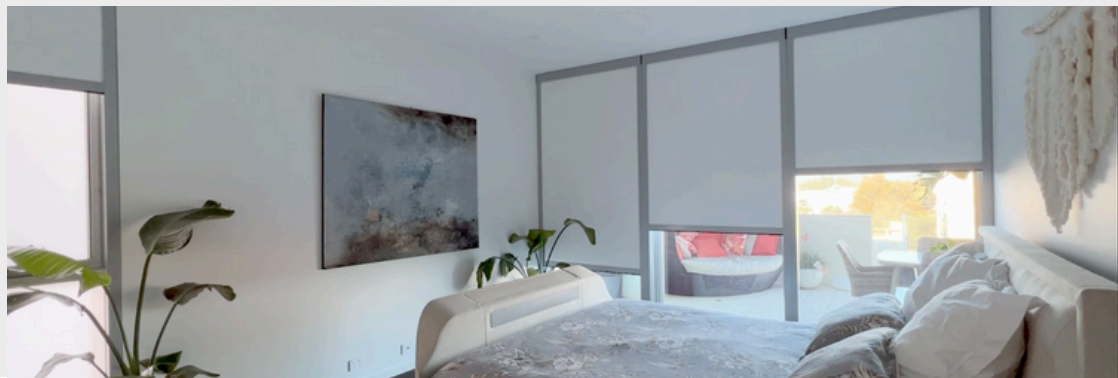

Had a wonderful experience with the company. Prompt in replying to my original enquiry. A quote and measure was done quickly and install was complete within a few weeks of ordering. We upgraded our normal block out blinds to electric block out blinds and would never go back. So easy to use and we love the sheer blind option too, which we didn't have before. Install was quick and fast and price was really reasonable for the amazing quality of the product. Would recommend and will use them again for all our blinds in the future.

- Claire M

We had Midnight Anytime Blinds installed on all the windows in our home yesterday and are absolutely delighted with them. They do exactly what they say and block out all light. John was great in overcoming some fly screen issues we had and the two young men who came to install the blinds were excellent tradesmen with amazing personalities. All in all a worthwhile addition to our home and we would not hesitate in recommending this company.

- Ken H

Made for you.
